LAGUNA JOINT SCHOOL DISTRICT

Cal/OSHA COVID-19 Safety Program (CSP)
Documentation

COVID-19 Prevention and Response Health and Safety Protocols

Overview

On March 16, 2020 site-based classroom instruction was suspended by order of the Marin County Public Health Officer in all Public and Private Schools in Marin County to help mitigate the spread of COVID-19 in the local community. All schools were forced to develop remote instruction for students, including all schools in the Laguna Joint School District. Under the guidance of the Marin County Public Health Officer, Marin County School Guidelines (30 Point Plan) and School Site Specific Protection Plans (SSSPPs) have been developed for all Laguna Joint School District Schools, Programs and offices. These SSSPP's meet all requirements of and serve as the Cal/OSHA COVID Prevention Plan (CPP), and along with the COVID-19 School Guidance Checklist serve as the Laguna Joint School District COVID-19 Safety Plan (CSP) for In-person Instruction. All District SSSPPs are consolidated and posted on the Laguna Joint School District Website, and individual SSSPP's for schools sites are posted on the school web sites and made available to staff, students and families as required.

A copy of this entire document will be posted on the Laguna Joint School District Homepage as required, and will also be included in the updated Laguna Joint School District Injury Illness & Prevention Program as Appendix A.

Table of Contents

- Marin County School Guidelines – 30 Point Plan
- COVID-19 School Guidance Checklist
- All Laguna Joint School District School's School Site Specific Protection Plans (SSSPP's) – Combined

When complete, this must be posted on your District and LEA website on the home page by February 1, 2021. Posting it on the school webpage is recommended.

Marin County School Guidelines

A Public Health Guided Return to Site-Based Classroom Instruction

**Dr. Matt Willis, Marin County Public Health Officer and
Mary Jane Burke, Marin County Superintendent of Schools**

**Issued June 18, 2020 / Revised August 12, 2020 (#6, #7, #9 & #19)
Revised December 8, 2020 (#8, #19 & #24)**

The purpose of this document is to provide guidelines to Marin County educational institutions — including public, private, independent and parochial TK-12 schools—to facilitate and return to site-based classroom instruction for the Fall 2020-2021 school year. The evolving nature of the COVID-19 pandemic requires the need to rethink common protocols and practices in the classroom setting with the understanding that these guidelines could change as the situation evolves.

1. All activities are consistent with and will adjust to changing applicable state and local Public Health orders.
2. Health and safety practices and protocols are in place, including hand washing, appropriate face coverings, access to essential protective equipment, and up to date student and staff attendance tracking.
3. Training is provided to all staff, students and families reinforcing the importance of health and safety practices and protocols.
4. A primary and secondary point of contact are established, identified and trained at each school site to direct questions or concerns around practices, protocols, or potential exposure. These points of contact will serve as liaisons to Public Health, and contact information is identified in the School Site-Specific Protection Plan.
5. Plans are implemented for intensified cleaning and disinfecting, including training for all staff and access to cleaning supplies and essential protective equipment, and regular disinfecting of frequently touched surfaces.
6. Health screening for students and staff are conducted as advised and updated by Public Health. On July 23, 2020 the Centers for Disease Control and Prevention (D) provided updated guidance on screening K-12 students emphasizing that parents and caregivers must monitor their children for signs of infectious illness every day at home, and universal symptom screening for K-12 students is not required. Staff should conduct daily health screening self-assessment, which may be completed through an online survey. ([Sample MCOE Staff Daily Health Screening](#))

7. Staff and students who are sick are expected to stay home, and an isolation area is identified for students who begin to exhibit symptoms during the school day, until they can be picked up.
8. Schools and districts will cooperate with Public Health to support testing strategies to mitigate transmission of COVID-19, including testing of staff who have regular daily contact with students before site-based classroom instruction is resumed, and then no less than once every month. This may include testing of students with appropriate parental permissions obtained in advance.
9. Protocols, actions and template communications are in place for the following COVID-19 related scenarios (link: [Marin County Public Health Exposure Protocols & Communication Templates](#) [Purple Tier/Stay Home Order](#) ~ [Red Tier](#) ~ [Orange Tier](#))
 - a. A student or staff member either exhibits COVID-19 symptoms or has a temperature of 100.4 or above.
 - b. A family member or someone in close contact with a student or staff member tests positive for COVID-19.
 - c. A student or staff member tests positive for COVID-19.
 - d. A student or staff member tests negative for COVID-19 after symptoms or confirmed close contact.
10. Where practicable, physical distancing of six feet is maintained between adults and between adults and students; four feet distance is permissible between students within a classroom or instructional area where requirements herein are in practice.
11. For elementary schools, stable classroom cohorts (up to standard class size at each respective grade level) are maintained throughout each school day, and through each quarter or semester, with an assigned primary cohort teacher, and systems are in place to prevent the mixing of classroom cohorts.
12. For middle and high schools, larger cohorts made up of students from more than one classroom may be arranged as long as accurate attendance data for students and adults is maintained on a daily basis while avoiding school wide mixing of students and staff.
13. Where practicable, desks are arranged facing forward to minimize face to face proximity between students.
14. School staff are permitted to visit and instruct more than one classroom cohort, following physical distancing and face covering protocols, and must document/record visits to classrooms that are not identified as their primary classroom cohort.
15. Routes for entry and exit to the campus will be designated for each classroom cohort, using as many entrances/exits as feasible.

16. Schedules for arrivals, recess and lunch will be strategically coordinated to prevent mixing of classroom cohorts.
17. Congregate movement through hallways will be minimized as much as practicable.
18. Large gatherings (i.e., school assemblies) are currently prohibited.
19. The use of outdoor space for instructional purposes is maximized, shared, and coordinated to ensure students remain in their cohort. Schools should assess indoor air quality and implement strategies that increase the amount of outdoor air brought into buildings, optimize current HVAC systems and supplement with portable air cleaners when practicable. Keep windows and other sources of natural ventilation open to the greatest extent possible.
20. Use of shared playground equipment will be limited in favor of physical activities that require less contact with surfaces, and shared equipment will be cleaned between uses.
21. Use of non-classroom space for instruction such as gymnasiums and multi-use rooms should be considered to support physical distancing with cleaning between uses.
22. Meals will be served outside as much as possible or in classrooms instead of cafeterias or dining rooms with individually plated or bagged meals as much as practicable.
23. Routines and schedules will be developed to enable students and staff to regularly wash their hands at staggered intervals.
24. All staff as well as all students are required to wear face coverings while in the classroom and on campus, unless there is a medical or behavioral contraindication or exemption. Students from grades TK - 2 should be supported and taught how to wear them properly, and specific outdoor and appropriately distanced activities may be scheduled for students at all grade levels to remove face coverings for brief periods of time.
25. Training will be provided for staff and students on proper use of face coverings which will include instruction to minimize touching of face coverings.
26. Sharing of supplies, manipulatives, toys, sports equipment, and other learning and recreational materials will be limited and each student will have separate individually labeled boxes or cubbies.
27. Sharing of electronic devices, clothing, books and other games or learning aids will be avoided as much as practicable.
28. Use of privacy boards or clear screens will be considered as much as practicable.

29. Non-essential visitors, including parent volunteers will be limited and essential workers will be required to adhere to all health and safety guidelines.
30. A [School Site-Specific Protection Plan](#)** outlining the above measures is completed, posted on school or district website and shared with all staff and families and will be updated as state and local Public Health guidance dictates.

****Please submit to SSSPP@marinschools.org.**

Completed plans will be forwarded to Public Health for review.

** **8.12.2020 Note:** Based on updated guidance from the California Department of Public Health (CDPH), Governor Newsom, and Marin County Public Health, site-based classroom instruction cannot resume until a waiver is granted by Public Health, which, if granted would apply to grades TK-6 only, or Marin County has been off of the state monitoring list for 14 days. During this time, teachers / staff may meet small cohorts of students (15 or fewer) onsite to onboard students to virtual learning and provide safety instruction to prepare for return to school (e.g., meet their teacher, obtain learning materials, receive hygiene instruction), and/or to participate in academic and emotional assessments. Students and staff must adhere to face covering, and physical distancing requirements described in these guidelines. While Marin remains on the CDPH county watch list, 6th grade students in schools who are granted waivers will be considered elementary school students during the waiver period.*

12.8.2020 Note: *If applicable and helpful, schools may update SSSPP's to reflect changes in guidelines #8, #19 and #24 and additional detail on implementation. Previously approved SSSPP's do not need to be re-submitted after making these revisions.*

COVID-19 School Guidance Checklist

January 14, 2021

CALIFORNIA
ALL

Your Actions
Save Lives

Date: _____

2021 COVID-19 School Guidance Checklist

Name of Local Educational Agency or Equivalent: _____

Number of schools: _____

Enrollment: __15_____`

Superintendent (or equivalent) Name: _____

Address: _____

Phone Number: _____

Email: _____

Date of proposed reopening: _____

County: _____

Grade Level (check all that apply)

Current Tier: _____
(please indicate Purple, Red, Orange or Yellow)

TK 2nd 5th 8th 11th

K 3rd 6th 9th 12th

1st 4th 7th 10th

Type of LEA: _____

This form and any applicable attachments should be posted publicly on the website of the local educational agency (or equivalent) prior to reopening or if an LEA or equivalent has already opened for in-person instruction. For those in the Purple Tier, materials must additionally be submitted to your local health officer (LHO), local County Office of Education, and the State School Safety Team prior to reopening.

The email address for submission to the State School Safety for All Team for LEAs in Purple Tier is:

K12csp@cdph.ca.gov

LEAs or equivalent in Counties with a case rate $\geq 25/100,000$ individuals can submit materials but cannot re-open a school until the county is below 25 cases per 100,000 (adjusted rate) for 5 consecutive days.

For Local Educational Agencies (LEAs or equivalent) in ALL TIERS:

I, _____, post to the website of the local educational agency (or equivalent) the COVID Safety Plan, which consists of two elements: the **COVID-19 Prevention Program (CPP)**, pursuant to CalOSHA requirements, and this **CDPH COVID-19 Guidance Checklist** and accompanying documents,

which satisfies requirements for the safe reopening of schools per CDPH [Guidance on Schools](#). For those seeking to open while in the Purple Tier, these plans have also been submitted to the local health officer (LHO) and the State School Safety Team.

I confirm that reopening plan(s) address the following, consistent with guidance from the California Department of Public Health and the local health department:

Stable group structures (where applicable): How students and staff will be kept in stable groups with fixed membership that stay together for all activities (e.g., instruction, lunch, recess) and minimize/avoid contact with other groups or individuals who are not part of the stable group.

Please provide specific information regarding:

How many students and staff will be in each planned stable, group structure? (If planning more than one type of group, what is the minimum and maximum number of students and staff in the groups?)

If you have departmentalized classes, how will you organize staff and students in stable groups?

If you have electives, how will you prevent or minimize in-person contact for members of different stable groups?

Entrance, Egress, and Movement Within the School: How movement of students, staff, and parents will be managed to avoid close contact and/or mixing of cohorts.

Face Coverings and Other Essential Protective Gear: How CDPH's face covering requirements will be satisfied and enforced for staff and students.

Health Screenings for Students and Staff: How students and staff will be screened for symptoms of COVID-19 and how ill students or staff will be separated from others and sent home immediately.

Healthy Hygiene Practices: The availability of handwashing stations and hand sanitizer, and how their safe and appropriate use will be promoted and incorporated into routines for staff and students.

Identification and Tracing of Contacts: Actions that staff will take when there is a confirmed case. Confirm that the school(s) have designated staff persons to support contact tracing, such as creation and submission of lists of exposed students and staff to the local health department and notification of exposed persons. Each school must designate a person for the local health department to contact about COVID-19.

Physical Distancing: How space and routines will be arranged to allow for physical distancing of students and staff.

Please provide the planned maximum and minimum distance between students in classrooms.

Maximum: _____ feet

Minimum: _____ feet. If this is less than 6 feet, please explain why it is not possible to maintain a minimum of at least 6 feet.

Staff Training and Family Education: How staff will be trained and families will be educated on the application and enforcement of the plan.

Testing of Staff: How school officials will ensure that students and staff who have symptoms of COVID-19 or have been exposed to someone with COVID-19 will be rapidly tested and what instructions they will be given while waiting for test results. Below, please describe any planned periodic asymptomatic staff testing cadence.

Staff asymptomatic testing cadence. Please note if testing cadence will differ by tier:

Testing of Students: How school officials will ensure that students who have symptoms of COVID-19 or have been exposed to someone with COVID-19 will be rapidly tested and what instructions they will be given while waiting for test results. Below, please describe any planned periodic asymptomatic student testing cadence.

Planned student testing cadence. Please note if testing cadence will differ by tier:

Identification and Reporting of Cases: At all times, reporting of confirmed positive and suspected cases in students, staff and employees will be consistent with [Reporting Requirements](#).

Communication Plans: How the superintendent will communicate with students, staff, and parents about cases and exposures at the school, consistent with privacy requirements such as FERPA and HIPAA.

Consultation: (For schools not previously open) Please confirm consultation with the following groups

Labor Organization

Name of Organization(s) and Date(s) Consulted:

Name: _____

Date: _____

Parent and Community Organizations

Name of Organization(s) and Date(s) Consulted:

Name: _____

Date: _____

If no labor organization represents staff at the school, please describe the process for consultation with school staff:

Our school does not have a collective bargaining unit, but that we have worked closely with our staff to review, develop and implement health and safety procedures, and have engaged parents, and any community groups that you work with to support instructional goals and extracurricular activities for students.

For Local Educational Agencies (LEAs or equivalent) in PURPLE:

Local Health Officer Approval: The Local Health Officer, for (state County) _____. County has certified and approved the CRP on this date: _____. If more than 7 business days have passed since the submission without input from the LHO, the CRP shall be deemed approved.

Specific Control Measures and Screenings

Please provide as much detail as possible for how you intend to implement each guideline. If you need additional space, please provide an attachment.

1. All activities are consistent with and will adjust to changing applicable state and local Public Health Orders. A multi-disciplinary Task Force has been established to develop and support this School Site Specific Protection Plan, who meet regularly to monitor and adjust the plan based on input from all stakeholders.
2. Health and safety practices and protocols are in place, including hand washing, appropriate face coverings, and access to essential protective equipment, and up to date student and staff attendance tracking.
3. Training is provided to all staff, students and families reinforcing the importance of health and safety practices and protocols.
4. A primary and secondary point of contact are established, identified, and trained at each school site to direct questions or concerns around practices, protocols, or potential exposure. These points of contact will also serve as a liaison to Public Health and contact information is identified in the School Site-Specific Protection Plan. (Points of Contact listed above).

5. Plans are implemented for intensified cleaning and disinfecting, including training for staff and access to cleaning supplies and essential protective equipment, and regular disinfecting of frequently touched surfaces.

6. Health screening for students and staff are conducted as advised and updated by Public Health. On July 23, 2020 the Centers for Disease Control and Prevention provided updated guidance on screening K-12 students emphasizing that parents and caregivers must monitor their children for signs of infectious illness every day at home, and universal symptom screening for K-12 students is not required. Staff should conduct daily health screening self assessment, which may be completed through an online survey. [\(Sample MCOE Staff Health Screening\)](#)

7. Staff and students who are sick are expected to stay home and an isolation area is identified for students who begin to exhibit symptoms during the school day, until they can be picked up.
Describe placement of designated Isolation Area:

8. Schools and districts will cooperate with Public Health to support testing strategies to mitigate

12. For middle and high schools, larger cohorts made up of students from more than one classroom may be arranged as long as accurate attendance data for students and adults is maintained on a daily basis while avoiding schoolwide mixing of students and staff.
